*A Sport of the now famous PICARDY*

## **WANDA** (Snyder)

New York, Chicago, Cleveland, Washington, Philadelphia, and many other wholesale cut flower markets have seen it in small or moderate quantities this past season. One large wholesaler has tried to buy exclusive cut flower rights. Being a typical Picardy in every sense of the word, except color, it will be one of the most valuable Glads to the cut flower grower that's come off the production line in some time.

Today 70% of the Glads grown in the South, and comprising 4,000 acres in the State of Florida alone, is PICARDY. And why? Because it opens perfectly from tight bud when shipped long distances. While Picardy has been the exception of all cut flower Glads, a typical Picardy in another color is bound to fill another color gap and give the public a change. It has already topped the best Picardy in price by an average of 25c a dozen over the past cutting season. I could ramble on and on, but everyone knows Picardy, and WANDA is just a true Picardy in another color.

**COLOR**—A rich cream, very nearly the shade of Shirley Temple, with a very slight Picardy marking of lavender to light violet which really sets off the flower.

**STOCK AVAILABLE**—We now have a fairly large stock of bulbs and are able to offer it both retail and in quantity to growers. The entire stock has been carefully selected for the past two seasons, tagging out all that showed any tendency to crook, come stubby or unhealthy, and we feel that not only a new variety is being offered but a selected strain as well.

No. 1—Per 3, 50c; Per 10, \$1.25; Per 100, \$8.00; Per 1000, \$70.00

No. 2—Per 3, 40c; Per 10, \$1.00; Per 100, \$6.50; Per 1000, \$55.00

No. 3—Per 3, 30c; Per 10, 80c; Per 100, \$5.50; Per 1,000, \$45.00.

**NO BULBULETS OR SMALL SIZES FOR SALE THIS YEAR**

## **GOLDEN YELLOW** (Snyder)

Here is one that should be valuable real late in the season. It's a sport of Betty Nuthall, retaining all its qualities, especially its robust growth, and is an exceptionally good propagator. The originator describes it as a bright, clean, medium yellow, without the Nuthall marking and just a shade lighter than Golden Goddess. A real Glad at a low price.

Any Size Bulb—\$1.00 each, 10 for \$8.00

All prices on this circular are net
